EDUCATION

Brigham Young University

Graduated Apr 2026

Bachelor of Science: Computer Science, Emphasis in Software Engineering

- Relevant Coursework: Data Structures (CS 235), Advanced Software Construction (CS 240), QA & DevOps (CS 329), Software Design (CS 340), Computer Security (CS 465)

SKILLS

Languages: TypeScript, Python, Java, C++, C, Rust, Golang, Racket (Shplait), KRL

Tools & Platforms: AWS, Docker, Linux CLI, GitHub, Playwright, Grafana, MySQL, NoSQL

Concepts: CI/CD design, MCP/LLM integration, Web Security

EXPERIENCE

DataAnnotation

August 2026–Current

Contract Worker

- I complete analysis-heavy and knowledge-intensive AI Agent training contracts under strict time conditions. This often requires parsing and understanding industry-scale codebases and utilizing Docker to encapsulate an Agent's current environment for future training purposes.

Boot.dev

Jan 2026–Jun 2026

Intern

- Resolved 50+ user-submitted tickets weekly, enhancing course curriculum and patching critical bugs across 10 foundational courses.
- Evaluated user feedback to determine technical feasibility, devised implementation strategies using industry best practices, and managed escalations to specialized engineering teams.
- Aided in the transition to an OpenCode agent for ticket processing, providing monitoring and fine-tuning to ensure seamless integration.

Pico Labs

Jan 2026–Apr 2026

Capstone Team Developer

- Collaborated as part of an Agile development team to deliver scalable software solutions in a fast-paced environment.
- Engineered a robust JavaScript API to extend product functionality, integrating with the existing Picos-based architecture.
- Facilitated weekly stakeholder demos and progress reporting to maintain project alignment with product owner requirements.

BYU Chemistry Department

Aug 2024–Apr 2026

Student Secretary

- Managed complex administrative and logistical workflows, consistently meeting tight deadlines for high-priority office operations.
- Maintained clear, professional communication channels with faculty and students, managing a high-volume email workflow.
- Directed the end-to-end recruitment and onboarding lifecycle for 150+ Teaching Assistants each semester.
- Mentored incoming administrative staff and supervisors, optimizing team performance by documenting and transitioning key operational duties.
